

Use addition strategies with place value to solve.

Ex) $311 + 559 = \underline{870}$
 $1 + 9 = 10$
 $10 + 50 = 60$
 $300 + 500 = \underline{800}$
 870

2) $701 - 440 = \underline{261}$
 $1 - 0 = 1$
 $0 - 40 = -40$
 $700 - 400 = \underline{300}$
 261

4) $222 + 212 = \underline{434}$
 $2 + 2 = 4$
 $20 + 10 = 30$
 $200 + 200 = \underline{400}$
 434

6) $174 + 240 = \underline{414}$
 $4 + 0 = 4$
 $70 + 40 = 110$
 $100 + 200 = \underline{300}$
 414

8) $987 - 826 = \underline{161}$
 $7 - 6 = 1$
 $80 - 20 = 60$
 $900 - 800 = \underline{100}$
 161

10) $736 - 653 = \underline{83}$
 $6 - 3 = 3$
 $30 - 50 = -20$
 $700 - 600 = \underline{100}$
 83

1) $28 + 595 = \underline{623}$
 $8 + 5 = 13$
 $20 + 90 = 110$
 $0 + 500 = \underline{500}$
 623

3) $896 - 670 = \underline{226}$
 $6 - 0 = 6$
 $90 - 70 = 20$
 $800 - 600 = \underline{200}$
 226

5) $173 + 592 = \underline{765}$
 $3 + 2 = 5$
 $70 + 90 = 160$
 $100 + 500 = \underline{600}$
 765

7) $96 + 694 = \underline{790}$
 $6 + 4 = 10$
 $90 + 90 = 180$
 $0 + 600 = \underline{600}$
 790

9) $17 + 160 = \underline{177}$
 $7 + 0 = 7$
 $10 + 60 = 70$
 $0 + 100 = \underline{100}$
 177

11) $399 + 214 = \underline{613}$
 $9 + 4 = 13$
 $90 + 10 = 100$
 $300 + 200 = \underline{500}$
 613

Answers

Ex. $\underline{870}$

1. $\underline{623}$

2. $\underline{261}$

3. $\underline{226}$

4. $\underline{434}$

5. $\underline{765}$

6. $\underline{414}$

7. $\underline{790}$

8. $\underline{161}$

9. $\underline{177}$

10. $\underline{83}$

11. $\underline{613}$
