

Use '>', '<' or '=' to compare the fractions.

Ex)  $\frac{1}{5} < \frac{4}{6}$

1)  $\frac{3}{12}$   $\frac{8}{10}$

2)  $\frac{2}{3}$   $\frac{1}{4}$

3)  $\frac{1}{6}$   $\frac{1}{3}$

4)  $\frac{7}{8}$   $\frac{2}{6}$

5)  $\frac{1}{5}$   $\frac{1}{6}$

6)  $\frac{2}{6}$   $\frac{4}{10}$

7)  $\frac{3}{5}$   $\frac{2}{4}$

8)  $\frac{6}{10}$   $\frac{2}{5}$

9)  $\frac{5}{8}$   $\frac{1}{5}$

10)  $\frac{1}{12}$   $\frac{3}{4}$

11)  $\frac{2}{3}$   $\frac{3}{12}$

12)  $\frac{10}{12}$   $\frac{2}{3}$

13)  $\frac{2}{4}$   $\frac{4}{12}$

14)  $\frac{2}{6}$   $\frac{2}{12}$

15)  $\frac{4}{5}$   $\frac{2}{8}$

16)  $\frac{2}{5}$   $\frac{5}{10}$

17)  $\frac{3}{12}$   $\frac{2}{4}$

18)  $\frac{2}{8}$   $\frac{1}{3}$

19)  $\frac{8}{10}$   $\frac{2}{3}$

20)  $\frac{1}{4}$   $\frac{3}{5}$

**Answers**

Ex.         <        

1.                         

2.                         

3.                         

4.                         

5.                         

6.                         

7.                         

8.                         

9.                         

10.                         

11.                         

12.                         

13.                         

14.                         

15.                         

16.                         

17.                         

18.                         

19.                         

20.

Use '>', '<' or '=' to compare the fractions.

Ex)  $\frac{1}{5} < \frac{4}{6}$

1)  $\frac{3}{12} < \frac{8}{10}$

2)  $\frac{2}{3} > \frac{1}{4}$

3)  $\frac{1}{6} < \frac{1}{3}$

4)  $\frac{7}{8} > \frac{2}{6}$

5)  $\frac{1}{5} > \frac{1}{6}$

6)  $\frac{2}{6} < \frac{4}{10}$

7)  $\frac{3}{5} > \frac{2}{4}$

8)  $\frac{6}{10} > \frac{2}{5}$

9)  $\frac{5}{8} > \frac{1}{5}$

10)  $\frac{1}{12} < \frac{3}{4}$

11)  $\frac{2}{3} > \frac{3}{12}$

12)  $\frac{10}{12} > \frac{2}{3}$

13)  $\frac{2}{4} > \frac{4}{12}$

14)  $\frac{2}{6} > \frac{2}{12}$

15)  $\frac{4}{5} > \frac{2}{8}$

16)  $\frac{2}{5} < \frac{5}{10}$

17)  $\frac{3}{12} < \frac{2}{4}$

18)  $\frac{2}{8} < \frac{1}{3}$

19)  $\frac{8}{10} > \frac{2}{3}$

20)  $\frac{1}{4} < \frac{3}{5}$
