Finding Percent of a Number (Exact Percentage)

Name:

Solve each problem.

1) 1 is what percent of 20?

2) 27 is what percent of 108?

3) 4 is what percent of 20?

4) 105 is what percent of 84?

5) 6 is what percent of 120?

6) 20 is what percent of 100?

7) 21 is what percent of 42?

8) 300 is what percent of 200?

9) 6 is what percent of 8?

10) 32 is what percent of 160?

11) 12 is what percent of 48?

12) 132 is what percent of 88?

13) 45 is what percent of 90?

14) 5 is what percent of 100?

15) 15 is what percent of 150?

16) 108 is what percent of 144?

17) 274 is what percent of 137?

18) 110 is what percent of 55?

19) 2 is what percent of 20?

20) 362 is what percent of 181?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
