

Use addition strategies with place value to solve.

Ex) $408 + 102 = \underline{510}$
 $400 + 100 = 500$
 $0 + 0 = 0$
 $8 + 2 = \underline{10}$
 510

2) $235 + 678 = \underline{913}$
 $200 + 600 = 800$
 $30 + 70 = 100$
 $5 + 8 = 13$
 913

4) $98 + 585 = \underline{683}$
 $0 + 500 = 500$
 $90 + 80 = 170$
 $8 + 5 = 13$
 683

6) $296 + 375 = \underline{671}$
 $200 + 300 = 500$
 $90 + 70 = 160$
 $6 + 5 = 11$
 671

8) $218 + 405 = \underline{623}$
 $200 + 400 = 600$
 $10 + 0 = 10$
 $8 + 5 = 13$
 623

10) $229 + 574 = \underline{803}$
 $200 + 500 = 700$
 $20 + 70 = 90$
 $9 + 4 = 13$
 803

1) $22 + 640 = \underline{662}$
 $0 + 600 = 600$
 $20 + 40 = 60$
 $2 + 0 = 2$
 662

3) $324 + 414 = \underline{738}$
 $300 + 400 = 700$
 $20 + 10 = 30$
 $4 + 4 = 8$
 738

5) $151 + 235 = \underline{386}$
 $100 + 200 = 300$
 $50 + 30 = 80$
 $1 + 5 = 6$
 386

7) $9 + 478 = \underline{487}$
 $0 + 400 = 400$
 $0 + 70 = 70$
 $9 + 8 = 17$
 487

9) $343 + 117 = \underline{460}$
 $300 + 100 = 400$
 $40 + 10 = 50$
 $3 + 7 = 10$
 460

11) $131 + 347 = \underline{478}$
 $100 + 300 = 400$
 $30 + 40 = 70$
 $1 + 7 = 8$
 478

Answers

Ex. $\underline{510}$

1. $\underline{662}$

2. $\underline{913}$

3. $\underline{738}$

4. $\underline{683}$

5. $\underline{386}$

6. $\underline{671}$

7. $\underline{487}$

8. $\underline{623}$

9. $\underline{460}$

10. $\underline{803}$

11. $\underline{478}$
