

Use addition strategies with place value to solve.

Ex) $307 + 333 = \underline{640}$
 $300 + 300 = 600$
 $0 + 30 = 30$
 $7 + 3 = \underline{10}$
 640

1) $290 + 548 = \underline{838}$
 $200 + 500 = 700$
 $90 + 40 = 130$
 $0 + 8 = \underline{8}$
 838

2) $747 + 139 = \underline{886}$
 $700 + 100 = 800$
 $40 + 30 = 70$
 $7 + 9 = \underline{16}$
 886

3) $536 + 395 = \underline{931}$
 $500 + 300 = 800$
 $30 + 90 = 120$
 $6 + 5 = \underline{11}$
 931

4) $240 + 296 = \underline{536}$
 $200 + 200 = 400$
 $40 + 90 = 130$
 $0 + 6 = \underline{6}$
 536

5) $118 + 753 = \underline{871}$
 $100 + 700 = 800$
 $10 + 50 = 60$
 $8 + 3 = \underline{11}$
 871

6) $90 + 283 = \underline{373}$
 $0 + 200 = 200$
 $90 + 80 = 170$
 $0 + 3 = \underline{3}$
 373

7) $714 + 222 = \underline{936}$
 $700 + 200 = 900$
 $10 + 20 = 30$
 $4 + 2 = \underline{6}$
 936

8) $676 + 183 = \underline{859}$
 $600 + 100 = 700$
 $70 + 80 = 150$
 $6 + 3 = \underline{9}$
 859

9) $444 + 488 = \underline{932}$
 $400 + 400 = 800$
 $40 + 80 = 120$
 $4 + 8 = \underline{12}$
 932

10) $162 + 120 = \underline{282}$
 $100 + 100 = 200$
 $60 + 20 = 80$
 $2 + 0 = \underline{2}$
 282

11) $266 + 211 = \underline{477}$
 $200 + 200 = 400$
 $60 + 10 = 70$
 $6 + 1 = \underline{7}$
 477

Answers

Ex. 640

1. 838

2. 886

3. 931

4. 536

5. 871

6. 373

7. 936

8. 859

9. 932

10. 282

11. 477
