

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $60 \div 5 = 12 \text{ r } \underline{\hspace{2cm}}$

2) $23 \div 10 = 2 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $30 \div 5 = 6 \text{ r } \underline{\hspace{2cm}}$

4) $21 \div 10 = 2 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $102 \div 5 = 20 \text{ r } \underline{\hspace{2cm}}$

6) $93 \div 10 = 9 \text{ r } \underline{\hspace{2cm}}$

3. _____

4. _____

5. _____

7) $6,851 \div 5 = 1,370 \text{ r } \underline{\hspace{2cm}}$

8) $35 \div 2 = 17 \text{ r } \underline{\hspace{2cm}}$

6. _____

7. _____

9) $644 \div 10 = 64 \text{ r } \underline{\hspace{2cm}}$

10) $772 \div 2 = 386 \text{ r } \underline{\hspace{2cm}}$

8. _____

9. _____

11) $517 \div 2 = 258 \text{ r } \underline{\hspace{2cm}}$

12) $6,999 \div 5 = 1,399 \text{ r } \underline{\hspace{2cm}}$

10. _____

11. _____

13) $89 \div 5 = 17 \text{ r } \underline{\hspace{2cm}}$

14) $772 \div 2 = 386 \text{ r } \underline{\hspace{2cm}}$

12. _____

13. _____

15) $69 \div 2 = 34 \text{ r } \underline{\hspace{2cm}}$

16) $725 \div 10 = 72 \text{ r } \underline{\hspace{2cm}}$

14. _____

15. _____

17) $32 \div 5 = 6 \text{ r } \underline{\hspace{2cm}}$

18) $23 \div 2 = 11 \text{ r } \underline{\hspace{2cm}}$

16. _____

17. _____

19) $68 \div 2 = 34 \text{ r } \underline{\hspace{2cm}}$

20) $677 \div 5 = 135 \text{ r } \underline{\hspace{2cm}}$

18. _____

19. _____

20. _____

Use multiplication rules to determine the missing remainder for each problem.

1) $60 \div 5 = 12 \text{ r } \underline{0}$

2) $23 \div 10 = 2 \text{ r } \underline{3}$

3) $30 \div 5 = 6 \text{ r } \underline{0}$

4) $21 \div 10 = 2 \text{ r } \underline{1}$

5) $102 \div 5 = 20 \text{ r } \underline{2}$

6) $93 \div 10 = 9 \text{ r } \underline{3}$

7) $6,851 \div 5 = 1,370 \text{ r } \underline{1}$

8) $35 \div 2 = 17 \text{ r } \underline{1}$

9) $644 \div 10 = 64 \text{ r } \underline{4}$

10) $772 \div 2 = 386 \text{ r } \underline{0}$

11) $517 \div 2 = 258 \text{ r } \underline{1}$

12) $6,999 \div 5 = 1,399 \text{ r } \underline{4}$

13) $89 \div 5 = 17 \text{ r } \underline{4}$

14) $772 \div 2 = 386 \text{ r } \underline{0}$

15) $69 \div 2 = 34 \text{ r } \underline{1}$

16) $725 \div 10 = 72 \text{ r } \underline{5}$

17) $32 \div 5 = 6 \text{ r } \underline{2}$

18) $23 \div 2 = 11 \text{ r } \underline{1}$

19) $68 \div 2 = 34 \text{ r } \underline{0}$

20) $677 \div 5 = 135 \text{ r } \underline{2}$
