

**Solve each problem.**

- 1) The table below shows the number of books GVAR read the first 4 months of school.

Month	Books Read
1	40
2	20
3	30
4	21

If Henry read 3 times as many books as Katie, how many more books did Henry read?

- 2) The table below show the number of employees each store has.

Store #	Employees
1	5
2	8
3	7
4	8

A new larger store is opening that will employ 9 times as many employees as all the other stores combined. How many fewer employees did the old stores have compared to the new store?

- 3) The table below show the pounds of candy a company sold in the months leading up to October.

Month	Pounds of Candy Sold
May	152
June	147
July	112
August	109
September	158

In October they sold 8 times as many pounds of candy as they did in the previous 5 months combined. How many more pounds did they sell in October than were sold in the previous 5 months?

- 4) The table below show the points GVAR scored on a video game each time she played.

Game #	Points Scored
1	173
2	102
3	128

After the first 3 games, she took a break and came back the next day and scored 2 times as many points as she had during all the previous games combined. How many more points did she score after her break?

**Answers**

1. \_\_\_\_\_  
 2. \_\_\_\_\_  
 3. \_\_\_\_\_  
 4. \_\_\_\_\_
