

Rewrite each number sentence using numerals and symbols.

Answers

- 1) fifteen minus W equals nine 1. _____
- 2) N times two equals two 2. _____
- 3) U divided by nine equals eight 3. _____
- 4) The sum of seven and G is thirteen 4. _____
- 5) eleven minus A equals five 5. _____
- 6) The product of F and three is twenty-four 6. _____
- 7) M divided by four equals ten 7. _____
- 8) The sum of five and C is thirteen 8. _____
- 9) T minus eight equals seven 9. _____
- 10) K times five equals thirty 10. _____
- 11) E divided by seven equals three 11. _____
- 12) The sum of J and three is seven 12. _____
- 13) The difference between twelve and A is nine 13. _____
- 14) two times R equals six 14. _____
- 15) B divided by two equals five 15. _____
- 16) The sum of D and two is nine 16. _____
- 17) sixteen minus Y equals ten 17. _____
- 18) eight times B equals sixty-four 18. _____
- 19) P divided by two equals nine 19. _____
- 20) Z divided by three equals three 20. _____

Rewrite each number sentence using numerals and symbols.

- 1) fifteen minus W equals nine
- 2) N times two equals two
- 3) U divided by nine equals eight
- 4) The sum of seven and G is thirteen
- 5) eleven minus A equals five
- 6) The product of F and three is twenty-four
- 7) M divided by four equals ten
- 8) The sum of five and C is thirteen
- 9) T minus eight equals seven
- 10) K times five equals thirty
- 11) E divided by seven equals three
- 12) The sum of J and three is seven
- 13) The difference between twelve and A is nine
- 14) two times R equals six
- 15) B divided by two equals five
- 16) The sum of D and two is nine
- 17) sixteen minus Y equals ten
- 18) eight times B equals sixty-four
- 19) P divided by two equals nine
- 20) Z divided by three equals three

Answers

1. $15 - W = 9$
2. $N \times 2 = 2$
3. $U \div 9 = 8$
4. $7 + G = 13$
5. $11 - A = 5$
6. $F \times 3 = 24$
7. $M \div 4 = 10$

Rewrite each number sentence using numerals and symbols.

- 1) The difference between fourteen and R is nine
- 2) The product of P and seven is forty-nine
- 3) G divided by eight equals ten
- 4) The sum of six and Z is sixteen
- 5) The difference between eleven and J is two
- 6) The product of N and seven is thirty-five
- 7) sixty-three divided by A equals seven
- 8) The sum of W and nine is fourteen
- 9) The difference between eleven and C is two
- 10) one times E equals two
- 11) seventy-two divided by Y equals nine
- 12) The sum of K and nine is fourteen
- 13) The difference between six and U is one
- 14) ten times T equals fifty
- 15) A divided by seven equals four
- 16) The sum of D and ten is twenty
- 17) The difference between four and B is one
- 18) F times eight equals thirty-two
- 19) seventy-two divided by H equals eight
- 20) nine plus B equals thirteen

Answers

1. $14 - R = 9$
2. $P \times 7 = 49$
3. $G \div 8 = 10$
4. $6 + Z = 16$
5. $11 - J = 2$
6. $N \times 7 = 35$
7. $63 \div A = 7$
8. $W + 9 = 14$
9. $11 - C = 2$
10. $1 \times E = 2$
11. $72 \div Y = 9$
12. $K + 9 = 14$
13. $6 - U = 1$
14. $10 \times T = 50$
15. $A \div 7 = 4$
16. $D + 10 = 20$
17. $4 - B = 1$
18. $F \times 8 = 32$
19. $72 \div H = 8$
20. $9 + B = 13$

Write each number sentence using numerals and symbols.

Rewrite each number sentence using numerals and symbols.

- 1) B minus ten equals five
- 2) The product of M and nine is eighteen
- 3) Z divided by five equals one
- 4) K plus seven equals twelve
- 5) fourteen minus A equals nine
- 6) The product of B and seven is seventy
- 7) fifty-four divided by P equals six
- 8) The sum of five and H is ten
- 9) The difference between eleven and U is three
- 10) The product of one and G is three
- 11) fifty divided by Y equals five
- 12) T plus nine equals fifteen
- 13) The difference between sixteen and F is eight
- 14) The product of seven and J is twenty-eight
- 15) twenty-seven divided by N equals nine
- 16) The sum of D and seven is seventeen
- 17) twelve minus E equals eight
- 18) seven times C equals twenty-one
- 19) A divided by four equals two
- 20) ten divided by R equals five

Answers

1. $B - 10 = 5$
2. $M \times 9 = 18$
3. $Z \div 5 = 1$
4. $K + 7 = 12$
5. $14 - A = 9$
6. $B \times 7 = 70$
7. $54 \div P = 6$
8. $5 + H = 10$
9. $11 - U = 3$
10. $1 \times G = 3$
11. $50 \div Y = 5$
12. $T + 9 = 15$
13. $16 - F = 8$
14. $7 \times J = 28$
15. $27 \div N = 9$
16. $D + 7 = 17$
17. $12 - E = 8$
18. $7 \times C = 21$
19. $A \div 4 = 2$
20. $10 \div R = 5$
