

Solve each problem.

- 1) The table below show the pounds of candy a company sold in the months leading up to October.

Month	Pounds of Candy Sold
June	123
July	118
August	157
September	146

In October they sold 3 times as many pounds of candy as they did in the previous 4 months combined. How many fewer pounds of candy did they sell in the previous 4 months compared to in October?

- 3) The table below show the points Emily scored on a video game each time she played.

Game #	Points Scored
1	126
2	189
3	119

After the first 3 games, she took a break and came back the next day and scored 2 times as many points as she had during all the previous games combined. How many fewer points did she score before her break than she scored after her break?

- 2) A new fast food restaurant opened 5 months ago. The table belows shows the number of burgers they've sold so far.

Month	Burgers Sold
1	2,212
2	1,081
3	2,840
4	2,215
5	3,836

The next month (after spending some money on an ad) they sold 3 times as many as they had sold in the previous 5 months. How many more burgers did they sell after running the ad?

- 4) The table below shows the number of books Maria read the first 3 months of school.

Month	Books Read
1	28
2	35
3	28

If Cody read 7 times as many books as Maria, how many fewer books did Maria read?

Answers

1. _____
 2. _____
 3. _____
